# Aldeamus Project

Token launch 2024

---

# Proposal

Aldeamus Project is based on the idea of bringing economic improvement to abandoned villages.

The token will help our team develop this brave adventure to it's best point when people decide to go and stay in this houses again.

Meanwhile investors will make profit when holding the token and sharing this information.

# 1. First steps

**Our first goal** will be sharing 50T coins at presale offering with great advantage to buyers.

→ **Polygon**

This token will be launched on Polygon blockchain..

→ **Presale value**

Buyers will get 1M coins for 1€. They will use MATIC coin to buy on our website..

→ **Uniswap**

We will send coins to Uniswap at a rate of 100€=10K coins. This means whoever holds coins on presale can make x10.000 easily if they sell coins in the future.

—

Now is time to be part of  
something big  
and build the future  
of our civilization

### Philosophy

Be part of this idea if you look for a place where to live a **peaceful life**.

Many people prefer life in the mountains or by the sea far away from the noise of big cities..

---

# Blockchain is the way.

(Technology will help us live in the nature again)

## Future

We don't want to fight against technological innovation..

Instead we will take this as an advantage that will help us bring nature closer to people..

Aldeamus will grow and bring this idea to many different **countries worldwide**, no matter how far or how poor places are, we will be there soon.

### Relations

There are many villages waiting for our help to restore old houses and improve people way of living.

We want everyone in their countries to join us and make this come true..

## 2. Next step

Our token will be listed on Coinmarketcap and Coingecko.

- **Community**  
Our community can share information or bring up new ideas.
- **Social**  
We encourage our followers to join us on Twitter, Youtube, Telegram and inside our website..

# Use your phone

Nowadays most people have a smartphone with applications installed.

We appreciate the help we get by people that share information about this project on social media.

Visit our website >> [www.aldeamus.com](http://www.aldeamus.com)

## Spread

Technology makes it easier when we want to spread the word..

Use your mobile phone to tell people about our project.

A hand holding a smartphone against a dark red background. The phone is held in a way that the screen is visible, though the content on it is not clear. The background is a blurred, dark red color.

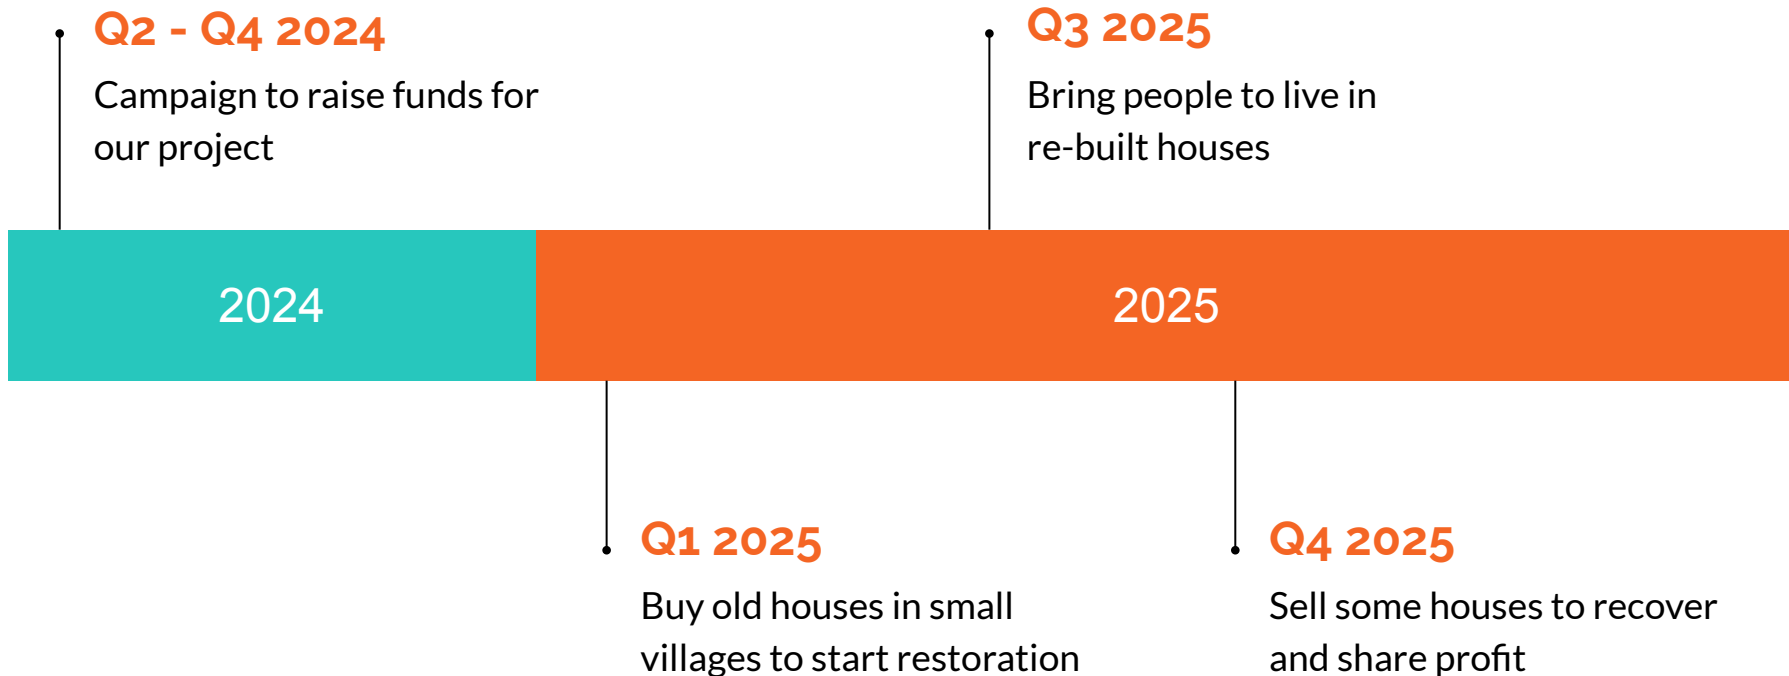

# More to come. Keep up and follow our events.

A piece of white, textured tape is stuck to the top edge of the white text box.

## Growth

We assume the compromise of improving houses, our website and even the blockchain related assets too.

# Tokenomics

## Restore houses and live better lives

Every time you buy DAX token you get profit and help us build this dream.

Be part of the best community.
